According to the Wayne County 2021-2022 Community Health Needs Assessment, substance abuse **ranks second for factors impacting Quality of Life in Wayne County**. Within Wayne County, our Law Enforcement data shows 114 overdose events from July 2021 to June 2022. This is a decrease from the previous year, however, for June 2022 year our overdoses are increasing again. CALM (Coalition on Addiction and Life Management) is asking Wayne County residents ages 13 and older from our community to determine where the real needs lie. We are asking everyone to participate in this study even if you have not had any experience with substance use. Given the current statistics, even if you don't use, it is likely that you have a family friend or friend who does and would benefit from resources in our community.
