Safe Kids

Carbon Monoxide Safety

TIPS FOR PARENTS

CHECK CARBON MONOXIDE ALARMS

- Make sure there is a working carbon monoxide (CO) alarm on every level of your home and near sleeping areas.
- Test CO alarms every month to make sure they are working correctly.
- Replace CO alarms according to the manufacturer's instructions.

PREVENT CO POISONING

- If you need to warm a vehicle, remove it from the garage immediately after starting it. Do not leave the engine running even if the garage door is open.
- Generators and grills should be used outside the home, away from windows and doors.
- On the outside of your home, make sure vents for the dryer, furnace, stove and fireplace are clear of snow and other debris.

IN AN EMERGENCY, LEAVE THE HOME IMMEDIATELY

- If the CO alarm sounds, immediately leave the home.
- Call 911 or the fire department after you are outside the home. Remain outside until emergency personnel arrive.
